

Derbyshire County Council
Local Transport Plan

1. Core Objectives

- Safety
- Economy
- Accessibility
- Integration
- Environment

'Actions for change' identified for each of above, and drawn into key themes:

- Better travel choice
- Safer, healthier communities
- Successful local economies
- Better-managed road network
- Low-impact leisure
- Protected rural areas

2. Strategy

- to allow for limited traffic growth but focus on improving choice.

i. Core Needs

- Network review
- Highway maintenance
- Bridge maintenance
- Safety schemes

ii. County Network

- Limited highway improvements to support hierarchy
- Bus and rail network
- Cycling
- Training and awareness

iii. Local Programme

- Community schemes eg safer routes to schools

iv. Major Schemes

- Supporting all of the above

3. Toolkit of Appropriate Measures -- Best Practice Manual

Application in each location subject to consultation, for which multi-modal studies will be a key input. LTP is the plan, not the implementation programme.

4. Programme

Derbyshire County Council
Local Transport Plan

Relationship to A453 Multi-Modal Study

County network and local programme both relevant; particularly regarding A6005. Safety schemes, bus priority, calming etc may all affect route choice. £0.5m identified for Long Eaton over three years. Key issue will be network hierarchy and role of A6005. No major schemes likely to affect A453 study.
